Fresenius Medical Care expands further in care coordination with the acquisition of National Cardiovascular Partners

Fresenius Medical Care AG & Co. KGaA (the “company” or “Fresenius Medical Care”; Frankfurt Stock Exchange: FME / New York Stock Exchange: FMS), the world’s largest provider of dialysis products and services, today announced the acquisition of National Cardiovascular Partners (“NCP”). The parties involved agreed not to disclose the financial terms of the acquisition.

The company expects NCP to generate in excess of \$200 million in revenue in 2015 and expects the investment to be accretive to earnings in the first year after closing. The investment will be financed through available cash and committed credit facilities, supplemented by additional debt financing.

NCP is the leading operator of endovascular, vascular and cardiovascular services in the comfort and convenience of the outpatient setting. In partnership with over 200 physicians, NCP operates 21 outpatient vascular centers in six states.

Ron Kuerbitz, chief executive officer of Fresenius Medical Care North America said, “Our mission is to improve the quality of life of every patient every day. We share this passion for patient care with NCP. The convenience of NCP’s outpatient clinics and the excellent care they provide will enhance our ability to improve health outcomes for people with chronic illness, in particular those with renal and cardiovascular disease”.

“We are pleased to join Fresenius Medical Care North America, and believe this partnership will ensure that many more Americans have access to the highest-quality and most affordable outpatient care available” said Ned Schwing, co-founder and chairman of NCP.

Fresenius Medical Care is the world's largest integrated provider of products and services for individuals undergoing dialysis because of chronic kidney failure, a condition that affects more than 2.5 million individuals worldwide. Through its network of 3,335 dialysis clinics in North America, Europe, Latin America, Asia-Pacific and Africa, Fresenius Medical Care provides dialysis treatments for 280,942 patients around the globe. Fresenius Medical Care is also the world's leading provider of dialysis products such as hemodialysis machines, dialyzers and related disposable products.
